

LPG ADAPTER

REMOTE REFILL LPG BOTTLE ADAPTER

Instruction

Welcome to a instruction where we will show you what the Bayonet POL Remote Refill LPG Bottle Adapter system looks like and what it is that you should receive in your envelope.

In the envelope you will receive 2 flyers, both of them are with other products that we have selected that should be of interest to you and are available through our online shop.

- From LPGCLEANER.COM there are IC12 and ICV propane fuel additives please visit the site for full details.
- From LPGGPL.COM and LPGADAPTER.com you will find a list of other adapters for different types of bottles and autogas refilling systems.

The Bayonet POL LPG Adapter Set is made out of number of individual units, so please take time to familiarise yourself with them.

- Starting with Flexi fuel line, remove items from envelope,
- Bayonet filling pot housing.
- POL LPG adapter
- Bayonet 8mm filling valve
- Hose ends and 8mm to 5/8 converter

HOSE PREPARING

1. Let's start by assembling the hose. The hose comes as a default of 2 meters in length although longer length can be specified cutting down ideally is done using hose cutters although sharp blade is adequate.
2. Separate the hose end in to 3 pieces, slide the nut on to hose first, followed by the olive and then insert the male fitting firmly in place.
3. Use hands to start threads and finish tightening with spanners until lock is felt.
4. Check for tightness.

LPG FILLING POINT

1. Now familiarise yourself with the filling pot assembly, hole required is 70mm.
2. The pot has locating cams to stop it turning.
3. The Bayonet valve has 2 locating pins, these should be mounted in horizontal position for proper operation of filling gun.
4. Use provided hardware to complete assembly
5. Insert the hose male fitting in to the filling valve and tighten the olive.
6. Remove POL -5/8 adapter from packaging and assemble with the 8mm-5/8 converter unit.
7. Tighten the male hose fitting in.

The Remote Bayonet Bottle Adapter system is now ready for installation.

Other Compatible products of interest are available from our store.

The same type of refilling can be used with variety of our adapters and filling valve systems.

DIFFERENT FILLING POINTS

- Another type is Bayonet 8mm with 90 degree bend. The Square Dust cap is universal to all Bayonet type filling valves.
- As is the Lockable Filler Cap, bit stiff at first.
- For neat finish we offer Flush Type filler set. They cover flap is around 5cm by 5cm.

The Flush Filling valve system is compatible with OUR range of Autogas refilling adaptors.

The remote kit is also compatible with EURO type bottle valves, 21.8 Left Hand Thread, these are found in many countries across Europe.

Buying from us you get good quality with cross range compatibility.

- The Autogas Adapters
 - Dish Adapter, Acme Adapter, Bayonet Adapter and Euronozzle Adapter
- The POL and Euro Bottle Adapters
- Different Filling Valve Systems

Please have a look at our other video, the refilling of propane cylinder.
